

1 ITGA2B

The integrin, alpha 2b (platelet glycoprotein IIb of IIB/IIIa complex, antigen CD41) gene is involved in the Rap1 and PI3K-Akt signaling pathway, Focal adhesion, ECM-receptor interaction, Platelet activation, Hematopoietic cell lineage, Regulation of actin cytoskeleton, Pathways in cancer, Small cell lung cancer and cardiomyopathy. It was not observed expression of this gene in the samples analyzed.
